**JUNE**

### 15 June 2019

**READING WATER FEST**
**Reading, Berkshire**

Visitors to this year’s celebration of Reading’s waterways will be treated to children’s activities, craft and charity stalls as well as boat parades and a boat tug of war.

*For further details visit the Reading Borough Council website:* [http://www.reading.gov.uk/article/11998/Reading-Water-Fest?InstanceId=1199820190615110000](http://www.reading.gov.uk/article/11998/Reading-Water-Fest?InstanceId=1199820190615110000)

**Contact:** 0118 937 2771

### 16 – 20 June 2019

**12TH IWA INTERNATIONAL CONFERENCE ON WATER RECLAMATION AND REUSE**
**Berlin, Germany**

This conference is hosted by DECHEMA, supported by DWA, and will address a range of topics related to water reclamation and reuse. The event brings together experts from research and development, solution providers and application.

**email:** matthias.neumann@dechema.de

### 17 – 20 June 2019

**17TH EUROPE-INBO 2019: INTERNATIONAL CONFERENCE FOR THE IMPLEMENTATION OF THE EUROPEAN WATER DIRECTIVE: Discussing the future of the European Water Directive and Showcasing ambition under midnight sun!**
**Sibelius Hall, Lahti, Finland**

EUROPE-INBO 2019 will be held in Lahti. The conference will be organised around a preparatory workshop and roundtables in plenary sessions on the updated issues of the practical implementation of the Water Framework Directive and other European Water Directives, especially the Flood Directive and the Marine Strategy Framework Directive.

**email:** secretariat@inob.org

### 18 – 20 June 2019

**FLOOD & COAST 2019: Risk, Resilience & Response in a Changing Climate**
**Telford**

Flood & Coast aims to advance the debate about flood and coast erosion risk, resilience and response between government bodies and local authorities with business, major infrastructure and asset managers, as well as affected communities.

*Further information will be made available on the conference website:* [https://www.floodandcoast.com/conference/](https://www.floodandcoast.com/conference/)

**email:** info@floodandcoast.com

### 19 June 2019

**SEA SCOTLAND CONFERENCE 2019: Sea, Soul and Society: Adapting to Climate Change**
**Edinburgh**

The annual Sea Scotland conference provides a multi-interest forum for Scotland-focused dialogue and knowledge-exchange for progressive marine policy and management. The conference aims to bring together bring experts and stakeholders to generate and share innovative thinking in order that Scotland addresses challenges of managing activities within its seas sustainably. The theme for Sea Scotland 2019 will be marine and coastal climate change adaptation.

*For further details visit the Sea Scotland website:* [http://www.seascotland.scot/](http://www.seascotland.scot/)

**email:** info@seascotland.scot

### 19 – 21 June 2019

**ECOSUD 2019: 12TH INTERNATIONAL CONFERENCE ON ECOSYSTEMS AND SUSTAINABLE DEVELOPMENT**
**Valencia, Spain**

This conference is organised by the Wessex Institute. The aim is to facilitate interdisciplinary communication between scientists, engineers, socio-economic specialists and other professionals working in ecological systems and sustainable development. It will provide a unique forum for the presentation and discussion of recent work on different aspects of ecosystems and sustainable development, including physical sciences and modelling.

*Further information will be made available on the Wessex Institute website:* [https://www.wessex.ac.uk/conferences/2019/ecosud-2019](https://www.wessex.ac.uk/conferences/2019/ecosud-2019)

**email:** Stephanie Everest  severest@wessex.ac.uk
19 – 21 June 2019

10TH IWA INTERNATIONAL SYMPOSIUM ON WASTE MANAGEMENT PROBLEMS IN AGRO–INDUSTRIES

Rhodes, Greece

AGRO'2019 is to provide a unique forum for discussion of as many aspects as possible within the context of waste management problems in agro-industries. Topics include: biological treatment of wastewaters and wastes; chemical treatment of wastewaters and wastes; nutrient removal and recovery; resources recovery and reuse; advanced treatment processes and innovative technological applications; run-off and control of pollutants from agricultural areas; and others.

For further details visit the IWA or conference website:
(http://www.iwa-network.org/events/10th-iwa-international-symposium-on-waste-management-problems-in-agro-industries/)
email: agro2019@itu.edu.tr

20 June 2019

WATER AND WASTEWATER NETWORKS: DELIVERING COST-EFFECTIVE RESILIENCE

Manchester

This Aqua Enviro event will cover clean and wastewater networks – from inspect/maintain regimes to new infrastructure and resilience, within the context of: Ofwat demands to decrease bills and leakage; increasing population and pressures on water supply; and climate change.

For further details visit the Aqua Enviro website:
(https://www.aquaenviro.co.uk/events/conferences/water-and-wastewater-networks-delivering-cost-effective-resilience/)
email: clare.hunter@aquaenviro.co.uk

21 – 23 June 2019

CIWEM RIVERS AND COASTAL GROUP STUDY WEEKEND 2019

Delft, The Netherlands

This international study weekend has been organised as part of the celebrations for this year's 70th anniversary of the CIWEM Rivers and Coastal Group. The theme is Planning and Innovation within the water sector, using some Dutch case studies, to stimulate discussion about how we might adopt these ideas in the UK.

For further details visit the CIWEM website:
email: events@ciwem.org or hannah.cooper@aecom.com

21 – 24 June 2019

RIVER RALLY 2019

Cleveland, Ohio, USA

River Rally is organised by River Network and provides an opportunity to share experience of an approach or innovation that could help achieve healthy rivers and engage communities in solving water problems.

For further details visit the River Network website:
(https://www.rivernetwork.org/connect-learn/river-rally-program/)
email: info@rivernetwork.org

23 – 26 June 2019

2ND INTERNATIONAL CONFERENCE ON NATURAL HAZARDS & INFRASTRUCTURE

Chania, Crete Island, Greece

ICONHIC2019 is organised by the Innovation Center on Natural Hazards and Infrastructure. It aims to encourage interdisciplinary action and an integrated approach to protecting infrastructure from extreme events including flooding, earthquakes and landslides.

For further details visit the conference website:
(https://iconhic.com/2019/)
email: secretary@iconhic.com

23 – 27 June 2019

9TH IWA INTERNATIONAL YOUNG WATER PROFESSIONALS CONFERENCE

Toronto, Canada

The International Young Water Professionals Conference brings together 300 water, environment and related young professionals from across the globe. It will include networking opportunities, technical sessions, discussion workshops, professional development sessions and a career fair.

Further information will be made available on the IWA website:
(https://iwa-youngwaterprofessionals.org/)
email: iWAYWPconference@iwahq.org

23 – 27 June 2019

9TH IWA SPECIALISED MEMBRANE TECHNOLOGY CONFERENCE & EXHIBITION FOR WATER AND WASTEWATER TREATMENT AND REUSE

Toulouse, France

IWA-MTC2019 is jointly organised by IWA and INSA Toulouse, and aims to share advance knowledge and experience in the innovation and utilization of membrane technology for water and waste water treatment and desalination. It will provide a forum for scientists and professionals working in the membrane sector of the water industry.

Further information will be made available on the conference or IWA website:
(https://mtc2019.sciencesconf.org/)
email: mtc2019@sciencesconf.org

23 – 27 June 2019

16TH IWA WORLD CONFERENCE ON ANAEROBIC DIGESTION

Delft University of Technology, Delft, The Netherlands

AD16 is organised by the IWA Anaerobic Digestion Specialist Group. The theme is 'Accelerating Natural Cycles with Anaerobic Digestion' and the conference aims to bring together and activate debate across the multiple disciplines needed to understand the processes related to anaerobic digestion.

Further information will be made available on the conference or IWA website:
(https://www.ad16conference.com/)
email: Info@ad16conference.com
24 June 2019

CELEBRATING HYDROMETRY
Institution of Civil Engineers, London
This joint CIWEM-BHS national meeting will provide an opportunity to learn more about the value that hydrometry provides for society, the environment and the economy. It will feature presentations and debate from those responsible for the collection and management of hydrometric data, through to those who use it in studies or in planning, managing and regulating the water environment.

For further information visit the BHS website: (http://www.hydrology.org.uk/meetings_events.php)
email: celia.kirby@btinternet.com

24 – 25 June 2019

ICRBMRP 2019: 21ST INTERNATIONAL CONFERENCE ON RIVER BASIN MANAGEMENT, RESTORATION AND PROTECTION
Oslo, Norway
This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides a forum to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of River Basin Management, Restoration and Protection.

Further information will be made available on the WASET website: (https://waset.org/conference/2019/06/oslo/ICRBMRP)
email: info@waset.org

24 – 25 June 2019

9TH INTERNATIONAL CONFERENCE ON ENVIRONMENTAL SCIENCE AND TECHNOLOGY
Copenhagen, Denmark
The theme of this EuroSciCon conference is ‘Let’s join hands & go green for Mother Nature’. It will be a platform for global scientists sharing information from both scientific and industrial groups and will stress the importance of environmental impact assessment.

For further information visit the EuroSciCon website: (https://environmentalscience.euroscicon.com/)
email: info@euroscicon.com

25 – 26 June 2019

10TH GLOBAL LEAKAGE SUMMIT 2019
London
This conference aims to enable water company practitioners to exchange information on topical case studies and learn about best practice technologies for assessing, monitoring and reducing leakage in their networks. It will consider how they are meeting their specific challenges of reducing leakage and meeting regulatory targets and customer expectations in networks with ageing infrastructure and continual bursts, and with external pressures on the network caused by climate change, drought and natural disasters.

For further information visit the global leakage summit website: (http://www.global-leakage-summit.com/)
email: Please use the contact form on the above website.

26 – 29 June 2019

24TH ANNUAL CONFERENCE OF THE EUROPEAN ASSOCIATION OF ENVIRONMENTAL AND RESOURCE ECONOMISTS
Manchester
This EAERE conference is hosted by the University of Manchester. It aims to provide an opportunity for meeting, exchanging and debating current topics in environmental, climate and resource economics.

For further information visit the conference website: (http://www.eaere-conferences.org/)
email: eaere2019@manchester.ac.uk

27 June 2019

URBAN DRAINAGE GROUP SUMMER CONFERENCE
Doubletree by Hilton, Glasgow Westerwood Golf and Spa Resort
The conference will cover strategies for flood risk management relating to Scotland in particular, with the benefit of practical applications and evaluation from practices across the UK.

For further details visit the CIWEM website: (https://www.ciwem.org/events/urban-drainage-group-summer-conference-2019)
email: Charlie Burnley udg.conference@gmail.com

27 – 28 June 2019

INSTITUTE OF WATER ANNUAL CONFERENCE 2019: Disrupt or be Disrupted: How Disruption is Transforming the Water Sector
Titanic Belfast, Belfast, Northern Ireland
This conference will consider the latest industry thinking, technological advances, digital technologies, and disruption to the environment and the role of plastics within the water company.

For further information visit the Institute of Water website: (http://www.instituteofwater.org.uk/events-info/?id=1022)
email: Megan Williams megan@instituteofwater.org.uk

30 June – 5 July 2019

11TH SYMPOSIUM FOR EUROPEAN FRESHWATER SCIENCES
Zagreb, Croatia
The SEFS series is coordinated by the European Federation for Freshwater Sciences (EFFS). SEFS11 will be hosted by the Croatian association of freshwater ecologists. It will be a celebration of 20 years since the first SEFS in Belgium (Antwerp) and will welcome freshwater scientists from around the world.

Further information will be made available on the Croatian association of freshwater ecologists’ website: (http://www.husek.hr/welcome-to-sefs11-in-croatia/)
email: husek@husek.hr
**NEW ENTRY**

**JULY**

**1 – 2 July 2019**

**IWA CONFERENCE ON ALGAL TECHNOLOGIES AND STABILISATION PONDS FOR WASTEWATER TREATMENT AND RESOURCE RECOVERY**

**VALLADOLID, SPAIN**

These two international conferences bring together scientists, algaeneers and practitioners to exchange the latest knowledge on the application of photosynthetic microorganisms for wastewater treatment and resource recovery, covering traditional opened ponds systems and the use of photobioreactors.

For further information visit the IWA website: (http://www.iwa-network.org/events/iwa-conference-on-algal-technologies-and-stabilisation-ponds-for-wastewater-treatment-and-resource-recovery/)

email: IWAlgae2019@uva.es

**NEW ENTRY**

**8 – 12 July 2019**

**NORTHUMBRIAN WATER INNOVATION FESTIVAL 2019**

**NEWCASTLE RACECOURSE, NEWCASTLE**

Northumbrian Water aim to bring leading innovators to the region for this third annual Innovation Festival. Representatives from universities, innovative businesses, company employees, engineers and customers will put forward ideas and solutions to help tackle major social and environmental challenges.

For further information visit the Innovation Festival website: (https://innovationfestival.org/)

email: innovation@nwl.co.uk

**NEW ENTRY**

**9 – 11 July 2019**

**11TH INTERNATIONAL SYMPOSIUM ON WATER SUPPLY TECHNOLOGY**

**YOKOHAMA, JAPAN**

This symposium is organised by the Japan Water Research Center (JWRC) and supported by IWA. It will provide water professionals with an opportunity to discuss important water supply issues around the world as well as the current trends of related technologies. The main theme will be ‘Water Supply Services and their Future – Reliable, Sustainable and Smart’.

Further information will be made available on the JWRC or IWA website: (http://www.jwrc-net.or.jp/english/collabo/11th_symposium.pdf)

(email: sympo_11th@jwrc-net.or.jp)

**NEW ENTRY**

**6 – 7 July 2019**

**STRATFORD RIVER FESTIVAL 2019**

**STRATFORD-UPON-AVON**

The Stratford River Festival is organised by Stratforward and will be held within the recreation ground on the banks of the River Avon opposite the Royal Shakespeare Theatre. It will include music, narrow boats on the River Avon, craft and food stalls and family activities.

For further information visit the Stratforward website: (http://www.stratforward.co.uk/events/stratford-river-festival/)

email: info@stratforward.co.uk

**NEW ENTRY**

**8 – 12 July 2019**

**NORTHUMBRIAN WATER INNOVATION FESTIVAL 2019**

**NEWCASTLE RACECOURSE, NEWCASTLE**

Northumbrian Water aim to bring leading innovators to the region for this third annual Innovation Festival. Representatives from universities, innovative businesses, company employees, engineers and customers will put forward ideas and solutions to help tackle major social and environmental challenges.

For further information visit the Innovation Festival website: (https://innovationfestival.org/)

**4 July 2019**

**HOT AIR! AIR POLLUTION IS JUST FAKE NEWS!**

**COTTONS CENTRE, LONDON**

The World Health Organisation estimates that around 7 million people die every year from exposure to polluted air. As environmental issues have moved up the social and political agenda in recent years, air pollution is now seen as a major threat to the global population. Now in its 6th year, the ACE Emerging Professionals and the South East Area of the Institute of Water and Tideway, invite you to join a satirical debate on air pollution wherein the ‘Corporate Climate Collaborators’ will go head to head with the ‘Extinction Rebellion’. Watch as Sarah Wixey from (WYG) leads the Climate Change Doubters against the Eco-Warriors adjudicated by the very wise Judge Martin Baggs.

For further details visit the Institute of Water website: (https://www.instituteofwater.org.uk/events-info/?id=1067)

email: mandhy@fyrefly.global

16 – 17 July 2019

13TH EUROPEAN WASTEWATER MANAGEMENT CONFERENCE & EXHIBITION

THE HILTON BIRMINGHAM METROPOLE, BIRMINGHAM

This 2-day EWWM conference provides a forum for practitioners and researchers to meet and discuss the needs and interests of the European water industry. The programme will include the 15th annual Constructed Wetlands Association Conference. Sessions include: Nitrogen and Phosphorus Removal, Emerging Contaminants - including microplastics; AMP 7 Challenges; Process Control and Optimisation; Process Modelling and Design; Biological Phosphorus Removal.

For further information visit the Aqua Enviro or EWWM website: (https://www.aquaenviro.co.uk/events/conferences/european-waste-water-management-conference/)
email: clare.hunter@aquaenviro.co.uk

16 – 17 July 2019

15TH CONSTRUCTED WETLAND ASSOCIATION ANNUAL CONFERENCE: Beyond Wastewater Management: The Multiple Benefits of Constructed Wetlands

THE HILTON BIRMINGHAM METROPOLE, BIRMINGHAM

This year’s CWA conference will be held alongside the European Waste Water Management Conference (see above). The programme will include speaker presentations from leading industry experts and academics, CWA training workshops and guided site visits to see some local wetlands in action.

For further details visit the CWA website: (https://www.constructedwetland.co.uk/events/conference/2019)
email: helen.nicholls@constructedwetland.co.uk or clare.hunter@aquaenviro.co.uk

16 – 18 July 2019

INTRODUCTION TO COASTAL & MARINE GIS: SHORT COURSE

ABP OCEAN GATE, SOUTHAMPTON

Delivered by ABPmer’s experienced GIS consultants and GeoData’s GIS trainers, this course uses case studies and hands-on activities to show how marine and coastal datasets can be used to support decision making.

For further details visit the ABP website: (http://www.abpmer.co.uk/services/courses-and-conferences/marine-data-and-gis-course/)
email: Nicola Dewey Ndewey@abpmer.co.uk

17 – 19 July 2019

WRE 2019: 5TH INTERNATIONAL CONFERENCE ON WATER RESOURCE AND ENVIRONMENT

MACAO, CHINA

WRE 2019 will provide a platform for researchers to present and exchange their findings in a wide range of topics relevant to water resources and environment.

For further details visit the conference website: (http://www.wreconf.org/)
email: info@wreconf.org

17 – 19 July 2019

INDOWATER 2019: 15TH INTERNATIONAL WATER, WASTEWATER & RECYCLING TECHNOLOGY EXPO & FORUM

JAKARTA, INDONESIA

This trade show is organised by "PT. Napindo Media Ashatama" in association with MEREBO Messe International. It provides a stage for the gathering of top professionals in the water and wastewater industry to get updated on the latest trends and developments and to build valuable partnerships.

For further details visit the Indowater website: (http://www.indowater.merebo.com/)
email: my@merebo.com

18 July 2019

NEXT STEPS FOR ENGLAND’S WATER MARKET: Investment, Innovation, Infrastructure and Costs for End Users

LONDON

This Westminster Energy, Environment & Transport Forum Keynote Seminar will discuss the next steps for water market reform in England. With PR19 encouraging the water industry to increase investment while ensuring affordable bills for the consumer, delegates will consider how to meet the aims of Water 2020 and protect customers while managing the trade-off between developing innovative technologies and keeping costs down for the end user.

For further details visit the Westminster Forum Projects website: (http://www.westminsterforumprojects.co.uk/conference/next-steps-for-uk-water-market)
email: info@forumsupport.co.uk

22 – 24 July 2019

5TH INTERNATIONAL CONGRESS ON WATER, WASTE AND ENERGY MANAGEMENT

PARIS, FRANCE

WWEM-19 is organized by academics and researchers of the University Complutense of Madrid, University Carlos III of Madrid, University of Extremadura and University of Las Palmas de Gran Canaria with the technical support of Sciknowledge European Conferences. It aims to create an international forum for academics, researchers and scientists to discuss worldwide results and proposals regarding issues related to water, waste and energy management.

For further details visit the congress website: (https://waterwaste-19.com/)
email: info@waterwaste-19.com
28 - 31 July 2019
74TH SOIL AND WATER CONSERVATION SOCIETY INTERNATIONAL ANNUAL CONFERENCE: Bridging the Divide: Uniting Rural and Urban Landscapes for Conservation
PITTSBURGH, PENNSYLVANIA, USA
This SWCS International Conference will cover eight general conservation research and practice topics. Specialty tracks will foster dialogue surrounding unique partnerships in watershed planning and implementation, engagement of the private sector in conservation, and the challenges of adapting the landscape to a changing climate.
For further details visit the SWCS website: (https://www.swcs.org/events/conferences/2019-annual-conference/)
email: Please use the contact form on the above website.

29 – 31 July 2019
WEF-EESS CONFERENCE ON ADVANCEMENT IN WATER AND WASTEWATER TREATMENT AND REUSE
SINGAPORE
Climate change has led to increase intensity of drought and precipitation. Together with rapid urbanisation, industrialisation and farming activities, addressing the pressing water issues would need to garner collaborative efforts in planning, management and innovation in technologies for sustainable supply of water. AWWTR2019 aims to bring together networks of professionals from the industry and academia of different disciplines from all over the world to share and discuss issues ranging from experience of full-scale systems, innovation water management strategies, cutting edge technologies to research & development to address the needs and strategies in water for sustainable future.
For further details visit the Advancement in Water and Wastewater Treatment and Reuse (AWWTR) website: (https://awwtr2019singapore.com/)
email: secretariat@awwtr2019singapore.com

30 July – 1 August 2019
NEW FOREST AND HAMPSHIRE COUNTY SHOW 2019
Brockenhurst, Hampshire
This celebration of country life is rated among the top ten agricultural shows in the country. It will feature trade stands, show jumping, as well as livestock competitions and many other attractions.
FWR will have a stand at this event and we welcome you to visit us.
For further details visit the show website: (https://www.newforestshow.co.uk/)
email: info@newforestshow.co.uk

AUGUST
4 – 7 August 2019
IWA WATER AND DEVELOPMENT CONGRESS & EXHIBITION 2019: Sustainable Solutions for Emerging Economies
COLOMBO, SRI LANKA
This 5th IWA Water and Development Congress & Exhibition creates an opportunity to share, mutually reinforce and accelerate work in progress towards achieving the 2030 Sustainable Development Goal 6 of ensuring the availability and sustainable management of water and sanitation for all.
For further information visit the IWA or Congress website: (http://www.iwa-network.org/events/iwa-water-and-development-congress-exhibition-2019/)
email: wdce2019programme@iwahq.org

24 – 26 August 2019
IWA FESTIVAL OF WATER 2019
WALTHAM ABBEY, ESSEX
The Inland Waterways Association Festival of Water 2019 will bring boaters and visitors to the Lee Navigation at Waltham Abbey over the August Bank Holiday weekend. Attractions will include craft stalls, food, music, and an illuminated boat procession.
For further details visit the IWA website: (https://www.waterways.org.uk/events_festivals/festival_water/IWA_festival_water)
email: event.enquiries@waterways.org.uk

25 – 30 August 2019
WORLD WATER WEEK 2019
Tele2 Arena, Stockholm, Sweden
World Water Week is organised by the Stockholm International Water Institute (SIWI) and has been an annual focal point for the globe’s water issues since 1991. The 2019 theme will be ‘Water for society – including all’.
For further information visit the World Water Week website: (http://www.worldwaterweek.org/)
email: siwi@siwi.org or worldwaterweek@mci-group.com

27 – 30 August 2019
9TH INTERNATIONAL CONFERENCE ON SEWER PROCESSES AND NETWORKS
AALBORG, DENMARK
SPN9 is an IWA sponsored event and is organised by members of IWA’s Sewer Systems & Processes working group (SSPWG) and the Sewer Processes and Networks Research Group at Aalborg University. The conference aims at communicating the latest scientific developments in the field of sewer processes and networks.
Further information will be made available on the conference or IWA website: (http://www.spn9.dk/)
email: spn@spn9.dk
**SEPTEmber**

1 – 4 September 2019

**10TH IWA SYMPOSIUM ON MODELLING AND INTEGRATED ASSESSMENT**

**Copenhagen, Denmark**

Watermatex 2019 will provide a forum to exchange methodologies and international experiences on all aspects of water-related problems within an interdisciplinary framework. It aims at promoting the application of mathematical methods for modelling and simulation, data management, systems analysis and decision support within the entire water sector.

(email: info@watermatex2019.org)

1 – 4 September 2019

**17TH INTERNATIONAL COMPUTING & CONTROL FOR THE WATER INDUSTRY CONFERENCE**

**University of Exeter, Exeter**

This is the 17th in a series of CCWI conferences organised by the universities of Brunel, De Montfort, Exeter, Imperial College, and Sheffield. The aim is to bring together practitioners and researchers to discuss the emerging ‘WATER 4.0’ agenda - water systems modelling, data and control.

For further details visit the conference website: [https://www.ccwi-2019.com/](https://www.ccwi-2019.com/)

(email: CCWI2019@exeter.ac.uk)

1 – 6 September 2019

**38TH IAHR WORLD CONGRESS: Water: Connecting the World**

**Panama City, Panama**

This International Association for Hydro-Environment Engineering and Research (IAHR) congress will provide a platform for science and practice to meet. It will focus on hydraulic structures, ports and coastal engineering, hydro-environment, water management and hydro-informatics, river and sediment management and climate change and extreme events. It will include technical visits to Panama Canal and the Panama Bay Sanitation Project.

Further information will be made available on the IAHR website: [http://iahrworldcongress.org/](http://iahrworldcongress.org/)

(email: iahr2019.sec@utp.ac.pa)

1 – 7 September 2019

**3RD WORLD IRRIGATION FORUM (WIF3)**

**Bali, Indonesia**

The Third World Irrigation Forum (WIF3) provides a platform for scientists, researchers, experts and professionals to come together to exchange and share experiences. The theme will be ‘Advance for water, food and nutrition security in a competitive environment’.

Further information will be made available on the International Commission on Irrigation and Drainage (ICID) website: [https://icid2019.com/](https://icid2019.com/)

(email: inacid.indonesia@gmail.com)

4 – 6 September 2019

**SMARTER CATCHMENT MONITORING, CLEANER WATERS ‘A European conference for innovation, knowledge exchange and networking’**

**Loughborough University London, Here East, Olympic Park**

This conference is organised by INTCATCH and supported by the IWA Specialist Group Instrumentation, Control and Automation. The conference is based around the vision of the EU H2020 project INTCATCH, which aims to deliver innovation in water quality monitoring to take on many of the challenges faced in improving water quality in our rivers and lakes.

(email: info@conference.intcatch.eu or conference@iwahq.org)

4 – 7 September 2019

**16TH INTERNATIONAL CONFERENCE ON ENVIRONMENTAL SCIENCE AND TECHNOLOGY**

**Rhodes, Greece**

The main organiser of CEST2019 is Global NEST (Network of Environmental Science and Technology). Presentations cover trends and innovations in the field of environmental science and technology with topic areas including: water and wastewater treatment and reuse; hydrology and water resources; environmental management and policies; and environmental pollution.

For further details visit the conference website: [https://cest2019.gnest.org/](https://cest2019.gnest.org/)

(email: cest@gnest.org)

6 September 2019

**A NET POSITIVE VISION FOR THE WATER SECTOR CONFERENCE**

**Institute of Water,**

**Severn Trent Water Headquarters, Coventry**

UK water firms are being urged to co-develop and jointly adopt a new long-term sustainability strategy for the sector, set to have an overarching aim of the industry “having the most positive impact possible on society and the environment”. This exciting Institute of Water event is the perfect opportunity to understand the views from the perspective of the financial regulator (Ofwat), the water company perspective (Severn Trent), the customer perspective (CCWater), and from the supply chain perspective (DWF).

For further details visit the Institute of Water website: [https://www.instituteofwater.org.uk/events/](https://www.instituteofwater.org.uk/events/)

(email: Megan Williams  megan@instituteofwater.org.uk)

8 – 12 September 2019

**3RD IWA RESOURCE RECOVERY CONFERENCE**

**Venice, Italy**

The overall theme of this conference is "Resource recovery – from concept to standard practice". This further develops the work done by the IWA cluster for resource recovery from water and the conferences in Belgium and the USA towards embedding resource recovery as a key consideration in urban water management.

Produced by FWR © FWR 2019
8 – 13 September 2019
6TH BIENNIAL SYMPOSIUM OF THE INTERNATIONAL SOCIETY FOR RIVER SCIENCE (ISRS)
Vienna, Austria
ISRS 2019 is organised by the Institute of Hydrobiology and Aquatic Ecosystem Management at the University of Natural Resources and Life Sciences Vienna (BOKU). The theme of the symposium is ‘Riverine landscapes as coupled socio-ecological systems’. It will emphasise research related to the use and protection of water resources considering complex and large river systems.
For further details visit the conference website: (http://isrs2019.info/cms/index.php/home-235.html)
email: info@isrs2019.info

9 – 11 September 2019
6TH WORLD CONFERENCE ON CLIMATE CHANGE
Berlin, Germany
This conference is organised by Conference Series LLC Ltd. The theme is ‘An insider’s view of climate science, politics, and solutions’. It is comprised of keynote and speakers sessions on the latest research designed to offer discussions that address current issues in climate change.
For further details visit the conference website: (https://climatechange.insightconferences.com/)
email: climatechange@expertsconferences.org

9 – 12 September 2019
10TH INTERNATIONAL GROUNDWATER QUALITY CONFERENCE (GQ 2019):
Groundwater Quality in the Transition between Rural and Urban Environments
Liège, Belgium
This conference is organised on behalf of the International Association of Hydrological Sciences (IAHS) and supported by the International Association of Hydrogeologists (IAH) and the H2020 Marie Curie ITN INSPIRATION project. The conference theme, “groundwater quality in the transition between rural and urban environments”, will focus on the need to protect, manage, repair and sustain groundwater quality in our growing urbanized environments.
Further information will be made available on the conference website: (http://aimontefiore.org/en/evénement/groundwater-quality-2019-gq2019/)
email: c.dizier@aim-association.org

10 – 12 September 2019
MARITIME TRANSPORT 2019: International Conference on Maritime Transport
Rome, Italy
This conference is organised by the Wessex Institute and Sapienza University of Rome and aims to discuss new developments and advanced technologies in a wide variety of topics related to maritime transport including ports and their operation, pollution and the protection of the marine environment, management of coastal regions, and many others.
Further information will be made available on the Wessex Institute website: (http://www.wessex.ac.uk/conferences/2019/maritime-transport-2019)
email: Irene Moreno Millan imoreno@wessex.ac.uk

11 – 12 September 2019
FLOOD EXPO 2019: The World’s Leading Flood Exhibition and Conference
NEC, Birmingham
This exhibition and conference is designed to help flood professionals and property owners discover the latest innovative products, services and strategies that transform the way flooding is predicted, prevented and managed.
For further information visit the Flood Expo website: (http://www.thefloodexpo.co.uk/)
email: Liam.Walker@prysmgroup.co.uk

11 – 12 September 2019
FUTURE RESOURCE EXPO 2019
NEC, Birmingham
This sustainability and resource management event provides a platform for the latest solutions and industry insights shaping the future of the utilities sector. Visitors will have access to all 5 fundamental zones, including: Smart Water Innovation, Renewables Zone, Energy Efficiency Tech, Zero Emissions Zone and Energy from Waste.
For further information visit the Future Resource Expo website: (http://www.futureresourceexpo.com/index.asp)
email: Please use the contact form on the above website.

11 – 12 September 2019
WASTEWATER EXPO 2019
NEC, Birmingham
The Wastewater Expo is part of the Contamination Expo Series. It is a leading event for professionals working in the water industry to find solutions for the monitoring and treatment of wastewater in industrial, residential, and commercial settings.
For further information visit the Water Contamination Expo website: (http://www.watercontaminationexpo.co.uk/)
email: stephen.bailey@prysmgroup.co.uk

11 – 13 September 2019
COASTAL CITIES 2019: International Conference On Coastal Cities
Rome, Italy
This conference is organised by the Wessex Institute and Sapienza University of Rome. The growth of world population and the preference for living in coastal areas has resulted in their ever-increasing development. This conference aims to consider coastal cities as dynamic complex systems which need energy, water, food and other resources and where integrated management and sustainable development is essential.
Further information will be made available on the Wessex Institute website: (http://www.wessex.ac.uk/conferences/2019/coastal-cities-2019)
email: Irene Moreno Millan imoreno@wessex.ac.uk

11 – 13 September 2019
5TH IWA INTERNATIONAL SYMPOSIUM ON WATER AND WASTEWATER TECHNOLOGIES IN ANCIENT CIVILISATIONS: Evolution of Technologies from Prehistory to Modern Times
Dead Sea, Jordan
This International Water Association symposium is organised locally by the University of Jordan and Water Utility of Amman. It will consider the evolution of water and wastewater technologies...
and will also play a role in gathering experts from different countries to share their experiences of groundwater depletion, and provide solutions from their own experiences to the participants from developing countries who have the same water issues as in Jordan.

email: weec@ju.edu.jo

15 – 18 September 2019

INTERNATIONAL CONFERENCE ON MICROPLASTIC POLLUTION IN THE MEDITERRANEAN SEA: Back to the Future: Building on our Engineering Heritage to Shape the Future of the Water Industry

HOTEL LA RESIDENZA, CAPRI

The conference will focus on one of the most actual and dangerous source of marine pollution. In fact, even though plastic pollution is a well-known worldwide problem, the discovery of the presence of microplastics or even nanoplastics in seas and oceans represents an unexpected and very alarming turn in this environmental challenge. Against this background, this μMED conference aims to share current knowledge, identify issues and propose solutions and actions to face and mitigate this environmental threat.

For further details visit the μMED website: [http://www.microplasticpollution.it/conference/about](http://www.microplasticpollution.it/conference/about)

email: info@microplasticpollution.it

15 – 20 September 2019

20TH INTERNATIONAL SYMPOSIUM ON HEALTH RELATED WATER MICROBIOLOGY

VIENNA, AUSTRIA

The International Symposium on Health-Related Water Microbiology is organised by the International Water Society (IWA) Specialist Group on Health-Related Water Microbiology (HRWM) biennially.

Further information will be made available on the HRWM or IWA website: [https://hrwm-watermicro.com/2018/01/26/20th-international-symposium-health-related-water-microbiology/](https://hrwm-watermicro.com/2018/01/26/20th-international-symposium-health-related-water-microbiology/)

[http://www.iwa-network.org/events/20th-international-symposium-on-health-related-water-microbiology/](http://www.iwa-network.org/events/20th-international-symposium-on-health-related-water-microbiology/)

email: conferences@iawahq.org

18 September 2019

FUTURE OF FLOOD RISK MANAGEMENT

CONGRESS CENTRE, LONDON

As our global temperature rises, so does the threat of flooding. A new strategy launched by the Environment Agency in May 2019 calls for urgent investment in natural barriers and flood relief systems, and the creation of resilient communities that can withstand this increased risk of flooding. Flood risk management has never been so critical to protecting future generations from disaster.

What can history teach us about the most effective approach to flood risk management? How can we apply lessons learned to the challenges we face today? And as our environment faces an uncertain future, what role can those working in rivers and coastal management play to protect future generations?

For further details visit the CIWEM website: [https://www.ciwem.org/events/future-of-flood-risk-management](https://www.ciwem.org/events/future-of-flood-risk-management)

email: events@ciwem.org

19 September 2019

BIODIVERSITY 2020 AND BEYOND: Developing UK Strategy and Embedding Conservation at the National and Local Levels

CENTRAL LONDON (TBA), UK

Despite sustained engagement by policy-makers, progress towards securing UK biodiversity has fallen short of targets and ambitions. This symposium therefore represents a unique and timely opportunity for national government, local authorities, environmental organisations, developers, third sector organisations and other key stakeholders to examine progress towards biodiversity targets.

For further details visit the Public Policy Exchange website: [http://www.publicpolicyexchange.co.uk/events/II19-PPEX?ss=em&tg=1a](http://www.publicpolicyexchange.co.uk/events/II19-PPEX?ss=em&tg=1a)

email: info@publicpolicyexchange.co.uk

21 – 22 September 2019

ROYAL COUNTY OF BERKSHIRE SHOW 2019

NEWbury SHOWGROUND, NEWbury

This event is organised by the Newbury and District Agricultural Society and ASAO Shows, It is one of the top 10 agricultural shows. Attractions include livestock, equine, crafts, displays, food, stalls and sports.

FWR will have a stand at this event and we welcome you to visit us.

For further information visit the Show website: [https://www.berkshireshow.co.uk/Show/index](https://www.berkshireshow.co.uk/Show/index)

email: office@newburyshowground.co.uk

21 – 25 September 2019

WEFTEC 2019

CHICAGO, USA

WEFTEC, the Water Environment Federation’s Annual Technical Exhibition and Conference, provides access to the field’s cutting-edge information, technologies, services, and networking.

Further information will be made available on the WEFTEC website: [https://www.weftec.org/](https://www.weftec.org/)

email: Please use the contact form on the above website.

22 – 27 September 2019

46TH IAH CONGRESS: GROUNDWATER MANAGEMENT AND GOVERNANCE: COPING WITH WATER SCARCITY

MALAGA, SPAIN

This congress is hosted by the IAH Spanish Chapter (IAH-GE) and the Center of Hydrogeology of the University of Malaga (CEHIUMA). Topics will consider appropriate management and governance of water resources needed to adapt to critical scenarios of drought and water availability.

email: organizing@iah2019.org
23 – 27 September 2019

**LESAM 2019: 8TH IWA LEADING EDGE CONFERENCE ON STRATEGIC ASSET MANAGEMENT OF WATER AND WASTEWATER INFRASTRUCTURES**

**Vancouver, Canada**

This conference is facilitated by the IWA Strategic Asset Management Specialist Group and establishes a forum where utilities, consultants, regulators, researchers and asset managers identify and discuss the main challenges, new solutions and trends in SAM.

**Further information will be made available on the IWA website:** [http://www.iwa-network.org/events/lesam-2019/](http://www.iwa-network.org/events/lesam-2019/)

**email:** water@iwahg.org

---

24 – 26 September 2019

**COASTAL MANAGEMENT 2019**

**La Rochelle, France**

ICE’s 9th Coastal Management conference looks at how engineers, scientists, coastal managers, government and communities can work together to find bold solutions to a changing coastline. It will consider new approaches to coastal engineering and integration with local planning to encourage adaptation to coastal change.

**For further details visit the Institution of Civil Engineers website:** [https://www.ice.org.uk/coastal2019](https://www.ice.org.uk/coastal2019)

**email:** Please use the contact form on the above website.

---

25 September 2019

**PROTECTING UK WATER QUALITY: Improving Water Management and Tackling Pollution**

**Central London (TBA), UK**

Latest biodiversity indicators show that between 2012 and 2017, there has been a 33% reduction of surface water bodies in England with high or good status (DEFRA, 2018). Despite commitments by successive governments, key stakeholders including the water industry, agriculture and rural land managers, urban and transport bodies have substantial roles to play in safeguarding national water bodies. With major components of the Government's strategic framework in place, delegates will scrutinise existing measures to maximise water quality at the national and local level. They will also determine cost-effective methods of tackling pollution and improving our water environment.

**For further details visit the Public Policy Exchange website:** [http://www.publicpolicyexchange.co.uk/events/JI25-PPE?ss=em&amp;tg=1a](http://www.publicpolicyexchange.co.uk/events/JI25-PPE?ss=em&amp;tg=1a)

**email:** info@publicpolicyexchange.co.uk

26 September 2019

**DELIVERING SUSTAINABLE WATER AND LAND MANAGEMENT**

**London**

With a new environmental land management regime to be developed as a successor to the Common Agricultural Policy, other factors such as soil health and biodiversity recovery are increasingly likely to be managed in a more integrated way at a catchment level. Such an increasing and complex range of outcomes risks overwhelming the organisations currently involved. So how can best practice be effectively shared, capacity built and a workable governance structure developed? And what will happen post-Brexit; will the necessary funding be available?

**For further details visit the CIWEM website:** [https://www.ciwem.org/events/delivering-water-land-management](https://www.ciwem.org/events/delivering-water-land-management)

**email:** events@ciwem.org

---

29 September 2019

**WORLD RIVERS DAY 2019**

World Rivers Day is a global celebration of the world’s rivers, waterways, observed every last Sunday in September. Established in 2005, it highlights the many values of rivers and strives to increase public awareness while encouraging the improved stewardship of rivers around the world.

**For further details visit the World Rivers Day website:** [http://worldriversday.com/](http://worldriversday.com/)

**email:** Please use the contact form on the above website.

---

30 September – 3 October 2019

**11th INBO WORLD GENERAL ASSEMBLY: WATER SECURITY: TAPPING THE BENEFITS OF INNOVATIVE & PARTICIPATIVE BASIN MANAGEMENT**

**Marrakesh, Morocco**

The INBO General Assembly will be held in partnership with the Global Institute for Water, Environment and Health (GIWEH). Organizations, administrations and other stakeholders interested in basin management will share their experiences on basin management. Sessions will cover knowledge, cooperation, rural development and climate change.

**For further details visit the INBO website:** [https://www.riob.org/en/events/11th-inbo-world-general-assembly](https://www.riob.org/en/events/11th-inbo-world-general-assembly)

INSTITUTE OF FISHERIES MANAGEMENT 50TH ANNIVERSARY CONFERENCE 2019: “Learning from the Past to Inform the Future”
NOTTINGHAM CONFERENCE CENTRE, NOTTINGHAM, UNITED KINGDOM

This year we celebrate fifty years of the Institute of Fisheries Management. This landmark annual conference will focus on a review of past success, the current state of fisheries and fish populations and a forward look at challenges and opportunities facing the industry from environmental and socio-economic change to technological development.

For further details visit the Institute of Fisheries Management website: (https://ifm.org.uk/events/event/ifm-50th-anniversary-conference-learning-from-the-past-to-inform-the-future/)
email: info@ifm.org.uk

9 October 2019
TACKLING SURFACE WATER FLOODING
COIN STREET COMMUNITY BUILDERS, LONDON

Surface water flooding threatens more people and properties in the UK than any other form of flood risk. With warnings that winter rainfall could increase by 35%, coupled with an increased likelihood of summer storms, it is essential to ensure that our infrastructure is resilient to, and can cope with, increased volumes of surface water. In 2018 Defra launched a Surface Water Management Action Plan to improve the way we understand and manage risk at a local and national level, in cities and rural areas. From building and upgrading resilient homes and infrastructure to enhancing collaboration and capacity across sectors, there is considerable work to be done to protect current and future generations from the risk of surface water flooding.

For further details visit the CIWEM website: (https://www.ciwem.org/events/surface-water-management-2019)
email: events@ciwem.org

9 October 2019
PHOSPHORUS REMOVAL TOMORROW: AMBITIONS AND REALITY
LIÈGE, BELGIUM

This European Sustainable Phosphorus Platform workshop will be supported by IWA, Eureau, ECSM, and the Université de Liège. It will discuss achieving low discharge consents, flexible permitting and phosphorus removal from small sewage works.

For further details visit the IWA or ESP website: (http://www.iwa-network.org/events/european-workshop-wastewater-phosphorus-removal-tomorrow-ambitions-and-reality/)
(email: info@phosphorusplatform.eu)

10 – 12 October 2019
INSTITUTE OF WATER SOUTH EAST AREA WEEKEND SCHOOL 2019:
Confident Communication for Future Leaders
CIM MOOR HALL, COOKHAM, MAIDENHEAD, BERKSHIRE

This is an interactive training course in which delegates will learn the art of successful communication culminating in a debate finale. It will include a Keynote presentation from Piers Clark (Isle Utilities) and an opportunity to meet senior leaders.

For further details visit the Institute of Water website: (https://www.instituteofwater.org.uk/events-info/?id=999)
email: kirsty.ayres@wsp.com

14 – 16 October 2019
INTERNATIONAL CONFERENCE ON SUSTAINABLE WATER TREATMENT TECHNOLOGIES AND ENVIRONMENT
BOULSMAIN, TIPAZA, ALGERIA

The SUSTWATER19 Conference is organised by the Unite de Developpement des Equipements Solaires. It aims to deliver science presentations and keynote talks from scientists and researchers working in water treatment technologies and environment.

For further details visit the UDES website: (http://udes.cder.dz/sustwater2019/index.html)
email: contact.sustwater@gmail.com

14 – 18 October 2019
USUK RESILIENCE FORUM 2019
ST JOHN’S COLLEGE, UNIVERSITY OF OXFORD, OXFORD

The USUK Resilience Forum is organised by the Florida Earth Foundation. It explores British expertise in resilience using case studies and field experiences around flood risk management initiatives with a special focus on how resilience can be financed. It will include a day focused on measures to mitigate River Thames flooding through engineered and natural solutions, a visit to the HR Wallingford Physical Modelling Centre and a visit to the Satellite Catapult Centre.

For further details visit the Florida Earth Foundation website: (http://www.floridaearth.org/index.cfm?fuseaction=events.details&content_id=14)
email: stan@floridaearth.org

15 – 17 October 2019
PREVENTING WATER CRISI:ES: Budapest Water Summit 2019
MILLENÁRIS PARK, BUDAPEST

The summit aims to promote solutions that tackle the problems of the emerging water crises we have to face, building around the issues of abundant, scarce and polluted water; and facilitate discussion on the challenges and find solutions on how to achieve a water-secure world.

For further details visit the Budapest Water Summit website: (https://www.budapestwatersummit.hu/en/Summit/News_Center/2019_05_03/budapest_water_summit_2019?Page=1)
email: budapestwatersummit@mfa.gov.hu

20 – 24 October 2019
11TH MICROPOL & ECOHAZARD CONFERENCE
SEOUL, SOUTH KOREA

This conference is organised by the IWA community Assessment and Control of Hazardous Substances in Water (ACHSW) and the Korean Society of Environmental Engineers (KSEE). It is aimed at policymakers, researchers, scientists and engineers for an exchange of views and experiences on best practices and innovative technologies in dealing with...
Emerging contaminants and their potential impact.

**20 – 24 October 2019**

**IDW WORLD CONGRESS 2019**

**Dubai, United Arab Emirates**

The biennial International Desalination Association World Congress is hosted by the Dubai Electricity and Water Authority. The theme is 'Crossroads to Sustainability' – how we evolve the role of desalination and how it works with new technologies to ensure sustainability of water resources.

**Further information will be made available on the IWA website:** [https://wc.idadesal.org/]
**email:** info@idadesal.org

**20 – 24 October 2019**

**INTRODUCTION TO COASTAL & MARINE GIS: SHORT COURSE**

**ABP Ocean Gate, Southampton**

Delivered by ABPmer’s experienced GIS consultants and GeoData’s GIS trainers, this course uses case studies and hands-on activities to show how marine and coastal datasets can be used to support decision making.

**For further details visit the ABP website:** [http://www.abpmer.co.uk/services/courses-and-conferences/marine-data-and-gis-course/]
**email:** Nicola Dewey  Ndewey@abpmer.co.uk

**20 – 24 October 2019**

**22ND INTERNATIONAL RIVERSYMPOSIUM**

**Brisbane, Australia**

The International Riversymposium is managed by the International RiverFoundation, which works in partnerships around the world to facilitate the sustainable management of the world’s rivers. This year’s theme will be ‘Resilient rivers’.

**For further details visit the Riversymposium website:** [http://riversymposium.com/]  **email:** irs@riverfoundation.org.au or use the contact form on the above website.

**24 October 2019**

**CIWEM SCOTTISH BRANCH BIENNIAL SYMPOSIUM**

**Edinburgh**

This event will focus on advancements, practice and approach in relation to the water and environment sector and also of technologies and the ways these fulfil the new and ever-changing needs of clients, stakeholders and their communities.

**For further details visit the CIWEM website:** [https://www.ciwem.org/events/scottish-branch-biennial-symposium]  **email:** danielle.king@rpsgroup.com

**27 – 31 October 2019**

**IWA DIPCON 2019: 19TH IWA INTERNATIONAL CONFERENCE ON DIFFUSE POLLUTION AND EUTROPHICATION**

**Jeju, South Korea**

DIPCON is the major biennial event of the IWA Diffuse Pollution and Eutrophication Specialist Group. It aims to encourage research, disseminate information, and support the development of policies to understand and solve environmental constraints caused by diffuse or non-point sources of pollution.

**Further information will be made available on the conference website:** [http://www.iwadipcon2019.org/]
**email:** iwadipcon2019@gmail.com

**29 – 30 October 2019**

**WORLD WATER-TECH NORTH AMERICA 2019: Driving Efficiency and Resiliency in Water and Wastewater Systems**

**Los Angeles, USA**

Los Angeles is where US, Canadian and international water utilities, municipalities and industrial end-users meet to find solutions to the challenges of asset optimization, digitization, leakage, energy and reuse.

**For further details visit the Institute of Water website:** [https://www.instituteofwater.org.uk/events-info/?id=1064]
**email:** https://go.rethinkevents.com/l/653923/2019-04-29/58cgz

**31 October – 2 November 2019**

**8TH IWA-ASPIRE CONFERENCE & EXHIBITION 2019**

**Hong Kong**

This International Water Association and Aspire conference will include four parallel sessions centred on themes related to water supplies, wastewater and stormwater management etc. The highlights will be on smart and novel solutions together with green infrastructures for water resilience and global actions required. There will also be networking events and one day of technical visits.

**Further information will be made available on the conference website:** [http://www.iwaaspire2019.org/]
**email:** info@iwaaspire2019.org

**3 – 7 November 2019**

**SETAC NORTH AMERICA 40TH ANNUAL MEETING: Back to the Future: Building on our Engineering Heritage to Shape the Future of the Water Industry**

**Toronto, Canada**

The meeting will emphasize the need for environmental scientists and managers from all sectors (e.g. academia, business, government, non-profit, non-governmental and intergovernmental organizations) to work together at a global scale to address shared environmental challenges. Sessions include: Aquatic & Terrestrial Toxicology, Ecology and Stress Response, Environmental Risk Assessment, Predictive and intergovernmental organizations) to work together at a global scale to address shared environmental challenges. Sessions include: Aquatic & Terrestrial Toxicology, Ecology and Stress Response, Environmental Risk Assessment, Predictive and...
nationally and internationally. This showcase for innovation, research, leadership, growth, communication and industry networking, encompasses presentations, research forums, workshops and a trade exhibition. Attracting and recognising respected professionals, incorporating the awarding of the WaPUG prize for services to the industry and promoting new talent with the Adam Dean Award, now in its 5th year

For further details visit the CIWEM website: (https://www.ciwem.org/events/urban-drainage-group-autumn-conference-2019)
email: events@ciwem.org

5 – 8 November 2019

IWA BIOFILMS: BIOFILMS & THEIR INTERACTIONS WITH SURFACES
SANTIAGO, CHILE

This International Water Association conference provides a meeting point for scientists to present their most recent data and to exchange novel information on basic and applied aspects of microbial biofilms, and their interactions with surfaces. It will include topics relevant to South America, such as mining, water sanitation, infrastructure, and health.

Further information will be made available on the IWA or conference website: (http://www.iwa-network.org/events/iwa-biofilms-biofilms-their-interactions-with-surfaces/) (https://biofilms2019.org/) email: water@iwahq.org or use the contact form on the conference website.

5 – 8 November 2019

AQUATECH AMSTERDAM 2019
AMSTERDAM, THE NETHERLANDS

Aquatech Amsterdam is a leading water trade show for process, drinking and waste water and an opportunity to connect with water professionals from all over the world.

Further information will be made available on the Aquatec website: (https://www.aquatechtrade.com/amsterdam/) email: aquatech@rai.nl

5 – 8 November 2019

ECOMONDO 2019: THE GREEN TECHNOLOGIES EXPO
RIMINI EXPO CENTRE, RIMINI, ITALY

This 23rd Edition brings together all sectors of the circular economy in a single platform: from material and energy recovery to sustainable development. Global Water Expo is the section dedicated to all stages in the integrated water cycle. The programme will include European ICT based solutions for smart water quality monitoring and basin management.

For further details visit the ECOMONDO website: (https://en.ecomondo.com/) email: Please use the contact form on the above website.

10 – 14 November 2019

INTERNATIONAL WATER CONFERENCE
ORLANDO, FLORIDA, USA

The IWC is organised by the Engineers’ Society of Western Pennsylvania and is dedicated to advancing new developments in the treatment, use and reuse of water for industrial and other engineering purposes.

Further information will be made available on the ESWP website: (https://eswp.com/water/overview/) email: eswp@eswp.com

13 – 15 November 2019

IWA PARTICLE SEPARATION SPECIALIST CONFERENCE 2019: Formation, Utilization and Removal of Particles for Improved Water Quality
AMHERST, MASSACHUSETTS, USA

This conference will provide a forum for presentation of the latest developments of the science and engineering of the formation, utilization and removal of particulate matter for the improvement of water quality. It will include developments in the areas of drinking water, water resource recovery and industrial water reclamation.

For further details visit the IWA website: (http://www.iwa-network.org/events/iwa-particle-separation-specialist-conference-2019-formation-utilization-and-removal-of-particles-for-improved-water-quality/) email: tobiason@umass.edu

16 – 21 November 2019

11TH RIVER, COASTAL AND ESTUARINE MORPHODYNAMICS SYMPOSIUM
AUCKLAND, NEW ZEALAND

RCEM 2019 is organised by the International Association for Hydro-Environment Engineering and Research (IAHR) and the Engineering New Zealand/Water New Zealand Rivers Group in association with the University of Auckland. Celebrating The theme of the conference is ‘Ka mua, ka muri: Looking back, moving forward’ and it will celebrate 20 years of the River, Coastal and Estuarine Morphodynamics community.

Further information will be made available on the conference website: (https://www.rcem2019.co.nz/) email: shelley@on-cue.co.nz

17 – 20 November 2019

8TH IWA MICROBIAL ECOLOGY AND WATER ENGINEERING SPECIALIST GROUP CONFERENCE
HIROSHIMA, JAPAN

This International Water Association specialist group conference covers a wide range of recent research on microbial diversity and their function in water engineering and natural water systems.

Further information will be made available on the IWA or conference website: (http://www.iwa-network.org/events/microbial-ecology-and-water-engineering-specialist-group-conference/) (http://mewe2019.org/) email: contact@mewe2019.org

19 – 20 November 2019

EUROPEAN BIOSOLIDS & ORGANIC RESOURCES CONFERENCE & EXHIBITION
THE POINT - EMIRATES OLD TRAFFORD, MANCHESTER

This conference gives an annual update on: legislatory changes, new technologies, best practice and site-experiences with existing technologies, and an insight into relevant research in biosolids and organic resources production and use.

Further information will be made available on the Aqua Enviro or European Biosolids website: (https://www.aquaenviro.co.uk/events/conferences/european-biosolids-organic-resources-conference/) (http://european-biosolids.com/) email: frances.woodhead@aquaenviro.co.uk or use the contact form on the European Biosolids website.

Produced by FWR © FWR 2019
19 - 20 November 2019
FUTURE OF UTILITIES: WATER 2019: Insights into Innovation and Resilience
HILTON TOWER BRIDGE, LONDON
This water industry conference will include an expert line-up of speakers, tailored content, debates and networking opportunities.
Further information will be made available on the Marketforce website: (https://marketforcelive.com/future-of-utilities/events/water/)
email: enquiries@marketforcelive.com

25 - 28 November 2019
IWA CONFERENCE ON ADVANCED WASTEWATER TREATMENT AND RESOURCE RECOVERY 2019
SHANGHAI, CHINA
This conference is hosted by Tongji University, in collaboration with the International Water Association. It will focus on both fundamental and applied research, and applications of technologies in designing, operation, modelling, and optimization of wastewater treatment systems and the future for nutrient removal and resource recovery.
For further details visit the IWA website: (http://www.iwa-network.org/events/15th-international-specialised-conferences-on-small-water-and-wastewater-systems/)
email: water@iwahq.org

DECEMBER
1 – 5 December 2019
16TH IWA SPECIALISED CONFERENCE ON SMALL WATER AND WASTEWATER SYSTEMS
MURDOCH UNIVERSITY, PERTH, AUSTRALIA
This conference will have topics regarding small systems which serve less than 100,000 population equivalent. It aims to share ideas, present the latest research findings and discuss new possibilities in science and technology with local and global policy directors, engineers and managers.
Further information will be made available on the IWA or Water Sensitive Cities website: (https://watersensitivesocities.org.au/content/16th-iwa-specialised-conference-on-small-water-and-wastewater-systems/)
email: K.Mathew@murdoch.edu.au

1 – 5 December 2019
IWA WATER AND DEVELOPMENT CONGRESS & EXHIBITION 2019: Sustainable Solutions for Emerging Economies
COLOMBO, SRI LANKA
This 5th IWA Water and Development Congress & Exhibition aims to bring together water science and research with the public and private sectors, financial institutions and policy makers, to understand challenges, solutions and development opportunities and to drive water cooperation and water solutions that can be applied globally.
For further details visit the IWA or congress website: (http://www.iwa-network.org/events/iwa-water-and-development-congress-exhibition-2019/)
email: wdce2019programme@iwahq.org

5 December 2019
FLOOD RISK MANAGEMENT: Resilience and Adaptation
LONDON
This one-day conference will look at the regulatory and policy backdrop enabling better flood risk management, provide practical strategies to manage the impact of flooding on infrastructure and housing development and look at practical, integrated approaches to catchment and flood risk planning.
email: amanda@environment-analyst.com.

12 – 13 December 2019
ICSWRM 2019: 21ST INTERNATIONAL CONFERENCE ON SUSTAINABLE WATER RESOURCES MANAGEMENT
ROME, ITALY
This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides a forum to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Sustainable Water Resources Management.
Further information will be made available on the WASET website: (https://waset.org/conference/2019/12/Rome/ICSWRM/home)
email: info@waset.org

2020
JANUARY
13 – 16 January 2020
INTERNATIONAL WATER SUMMIT
ABU DHABI, UNITED ARAB EMIRATES
This conference is part of the Abu Dhabi Sustainability Week 2020. It is a global platform for promoting water sustainability in arid regions.
Further information will be made available on the IWS website: (https://www.internationalwatersummit.com/)
email: info@reedexpo.ae

FEBRUARY
9 – 13 February 2020
15TH IWA SPECIALIST CONFERENCE ON WATER BASIN AND RIVER MANAGEMENT
QUIV NOHN, VIETNAM
This International Water Association conference covers a wide
range of topics including: ecological and hydromorphological issues for a well-balanced watershed management; integrated surface and ground water management; integrated monitoring of water resources and environmental quality; building resiliency in water resources management, including foreseen impacts of climate change; and more.

Further information will be made available on the IWA website: (http://www.iwa-network.org/events/15th-iwa-specialist-conference-on-water-basin-and-river-management/)
email: conferences@iwahq.org

MARCH

16 – 20 March 2020
MEMBRANE TECHNOLOGY CONFERENCE & EXPOSITION 2020
PHOENIX, AZ, USA
This American Membrane Technology Association and American Water Works Association conference will explore how the latest developments in membrane technology can enhance water reliability and quality.

For further details visit the AMTA or AWWA website:
email: custsrv@amtaorg.com or service@awwa.org

APRIL

16 – 17 April 2020
ICWM 2020: 22ND INTERNATIONAL CONFERENCE ON WATER MANAGEMENT
LISBON, PORTUGAL
This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides a forum to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Water Management.

Further information will be made available on the WASET website:
(https://waset.org/conference/2020/04/lisbon/ICWM)
email: info@waset.org

MAY

4 – 8 May 2020
IFAT 2020: WORLD’S LEADING TRADE FAIR FOR WATER, SEWAGE, WASTE AND RAW MATERIALS MANAGEMENT
MUNICH, GERMANY
IFAT is organised by Messe München as a showcase for strategies and new solutions for water, sewage, waste and raw materials management.

Further information will be made available on the IFAT website: (https://www.ifat.de/index-2.html)
email: info@ifat.de

6 – 8 May 2020
SUSTAINABLE DEVELOPMENT AND PLANNING 2020:
11th International Conference on Sustainable Development and Planning
A CORUÑA, SPAIN
This conference is organised by the Wessex Institute. It will discuss new academic findings and their application in planning and development strategies, assessment tools and decision making processes. A wide range of topics are covered including: sustainability and the built environment, environmental policies and planning, resources management, urban flooding and drainage, climate change, waste management, and water supply and management.

Further information will be made available on the Wessex Institute website: (https://www.wessex.ac.uk/conferences/2020-conferences/sdp-2020)
email: Irene Moreno Millan imoren@wessex.ac.uk

10 – 14 May 2020
13TH IWA SPECIALISED CONFERENCE ON DESIGN, OPERATION AND ECONOMICS OF LARGE WASTEWATER TREATMENT PLANTS
VIENNA, AUSTRIA
This 50th anniversary conference will focus on all aspects of the design and operation of large wastewater treatment plants including economic topics. It will also discuss research and technology for nutrient removal and recovery approaches. Topics will be: design and operation; management of wastewater services; sludge handling; and innovative technologies.

Further information will be made available on the IWA or conference website:
(http://www.iwa-network.org/events/13th-iwa-specialised-conference-on-design-operation-and-economics-of-large-wastewater-treatment-plants/)
(http://www.iwwtp2020.net/home/)
email: secretary@iwwtp2020.net

11 – 13 May 2020
FRIAR 2020:
7th International Conference on Flood and Urban Water Management
VALENCIA, SPAIN
The conference is organised by the Wessex Institute, Birmingham City University and the Polytechnic of Milan. It provides a forum for researchers, academics and practitioners actively involved in improving understanding of flood events and approaches to response, recovery and resiliency. It will cover a wide range of technical and management topics related to flooding and its impacts on communities, property and people.

Further information will be made available on the Wessex Institute website: (https://www.wessex.ac.uk/conferences/2020-conferences/friar-2020)
email: Irene Moreno Millan imoren@wessex.ac.uk

11 – 15 May 2020
IWRA XVII WORLD WATER CONGRESS
DAEGU, REPUBLIC OF KOREA
This International Water Resources Association World Water Congress will be jointly organised with the Ministry of
## 15th International Conference on Monitoring, Modelling and Management of Water Pollution

Valencia, Spain

Water Pollution 2020 is organised by the Wessex Institute of Technology, UK. It provides a platform for discussion amongst scientists, managers and academics from different areas of water contamination and covers a wide range of topics relating to problems caused by water pollution.

Further information will be made available on the Wessex Institute website: [https://www.wessex.ac.uk/conferences/2020-conferences/water-pollution-2020](https://www.wessex.ac.uk/conferences/2020-conferences/water-pollution-2020)

**Email:** Irene Moreno Millan  imoreno@wessex.ac.uk

## 17 – 21 May 2020

### World Fish Migration Day 2020

World Fish Migration Day is a one day global celebration to create awareness on the importance of free flowing rivers and migratory fish. Following on from the successful event in 2018, with 570 registered events taking place, WFMD are aiming for 1000 events in 2020.

Further information will be made available on the WFMD website: [https://www.worldfishmigrationday.com/join-wfmd](https://www.worldfishmigrationday.com/join-wfmd)

**Email:** info@fishmigration.org

## 19 – 21 May 2020

### Aquaculture UK

Aviemore, Scotland

This conference and exhibition provides an opportunity to network, discover new products and meet decision makers, representing all aspects of the aquaculture industry.

For further details visit the Aquaculture UK website: [https://aquacultureuk.com/](https://aquacultureuk.com)

**Email:** info@aquacultureuk.com

## 20 – 23 May 2020

Riga, Latvia

This IWA EE YWP conference will be structured as two parallel sessions, one focusing on water management, and the other on water treatment technologies. It will include both long and short presentations and networking opportunities.

Further information will be made available on the IWA website: [http://www.iwa-network.org/events/12th-eastern-european-young-water-professionals-conference-water-for-all-water-for-nature-reliable-water-supply-wastewater-treatment/](http://www.iwa-network.org/events/12th-eastern-european-young-water-professionals-conference-water-for-all-water-for-nature-reliable-water-supply-wastewater-treatment/)

**Email:** iwa.ywp.2020@gmail.com

## 28 – 29 May 2020

Tokyo, Japan

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides a forum to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Environment and Water Resource Management.

Further information will be made available on the WASET website: [https://waset.org/conference/2020/05/tokyo/ICEWRM/call-for-papers](https://waset.org/conference/2020/05/tokyo/ICEWRM/call-for-papers)

**Email:** info@waset.org

## June

### WATER Loss 2020

Shenzhen, China

This biennial conference of the IWA Water Loss Specialist Group will be hosted by the Shenzhen Water Group. Experts in the field of Non Revenue Water Management will be present and will discuss the latest developments, strategies, techniques and applications of international best practices as well as successful case studies.

**Email:** water@iwahq.org

### ENVIRONMENTAL IMPACT 2020: 5th International Conference on Environmental and Economic Impact on Sustainable Development

Seville, Spain

This conference is organised by the Wessex Institute to provide an international forum to discuss the most serious problems affecting sustainable development. It will examine issues related to whether some forms of development are compatible with environmental protection, particularly in...
cases of possible serious contamination. It covers a wide range of topics including: environmental policies and planning; environmental assessments; sustainable cities; natural resources management; air and water pollution; irrigation; and UN Sustainable Development Goals.

Further information will be made available on the Wessex Institute website: (https://www.wessex.ac.uk/conferences/2020-conferences/environmental-impact-2020)

email: Irene Moreno Millan imoreno@wessex.ac.uk

14 – 17 June 2020
ACE20: AWWA ANNUAL CONFERENCE & EXPOSITION
ORLANDO, FLORIDA, USA

This conference and trade fair is organised by the American Water Works Association and provides a gathering of water professionals to discuss solutions to the complex challenges facing the water industry.

Further information will be made available on the AWWA website: (https://www.awwa.org/conferences-education/conferences/annual-conference.aspx)

email: service@awwa.org or use the contact form on the above website.

14 – 18 June 2020
25TH IAHR INTERNATIONAL SYMPOSIUM ON ICE
TRONDHEIM, NORWAY

The IAHR International Symposium on Ice is organised by the International Association for Hydro-Environment Engineering and Research.

Further information will be made available on the IAHR website: (http://www.iahr.org/Portal/Event_Display.aspx?EventKey=25THISI&WebsiteKey=04fe78d1-b4d2-4135-be74-d816e77e0ded)

email: iaahr@iahr.org

24 – 27 June 2020
25TH ANNUAL CONFERENCE OF THE EUROPEAN ASSOCIATION OF ENVIRONMENTAL AND RESOURCE ECONOMISTS
BERLIN, GERMANY

This EAERE conference is organised by Technische Universität Berlin. It aims to provide an opportunity for meeting, exchanging and debating current topics in environmental, climate and resource economics.

For further information visit the conference website: (http://www.eaere-conferences.org/index.php?y=2020)

email: eaere@eaere.org

30 June – 2 July 2020
6TH IAHR EUROPE CONGRESS: Hydro-Environment Research and Engineering – No Frames, No Borders
WARSAW, POLAND

This congress will constitute an interdisciplinary platform for both experienced and (especially) young researchers, practitioners and educators to discuss the most recent research trends and findings in the fields of hydro-environment research and engineering.

Further information will be made available on the IAHR website: (http://iahr2020.syskonf.pl/)

email: iaehr2020@igf.edu.pl

5 – 9 July 2020
SINGAPORE INTERNATIONAL WATER WEEK
SINGAPORE

Singapore International Water Week is a global platform to share and co-create innovative water solutions. This biennial event gathers stakeholders from the global water industry to share best practices, showcase the latest technologies and tap business opportunities.

Further information will be made available on the SIWW website: (https://www.siww.com.sg/)

email: info@siww.com.sg

7 – 9 July 2020
WASTE MANAGEMENT 2020: 10TH INTERNATIONAL CONFERENCE ON WASTE MANAGEMENT AND THE ENVIRONMENT
MADRID, SPAIN

Waste Management 2020 is organised by the Wessex Institute, Parthenope University of Naples, Italy and Nagoya University, Japan. It provides a forum for the exchange of scientific information and work on the current situation of waste management and the move towards sustainable strategies. It covers a wide range of topics including the circular economy, environmental impact, wastewater, waste treatment technologies, and water microbiology.

Further information will be made available on the Wessex Institute website: (https://www.wessex.ac.uk/conferences/2020-conferences/waste-management-2020)

email: Irene Moreno Millan imoreno@wessex.ac.uk

7 – 10 July 2020
RIVER FLOW 2020: 10TH INTERNATIONAL CONFERENCE ON FLUVIAL HYDRAULICS
DELFT UNIVERSITY OF TECHNOLOGY, DELFT, THE NETHERLANDS

This IAHR Committee on Fluvial Hydraulics conference aims at bringing together scientists, engineers, and practitioners active in the field of fluvial hydraulics and river morphology. Generic conference themes are river hydrodynamics, river morphology and sediment transport, river engineering and restoration, and hydraulic structures.

Further information will be made available on the River Flow website: (http://www.riverflow2020.nl)

email: contact@riverflow2020.nl

26 – 30 July 2020
HIC 2020: 14TH INTERNATIONAL CONFERENCE ON HYDROINFORMATICS
MEXICO CITY, MEXICO

HIC 2020 is organised by the International Association for Hydro-Environment Engineering and Research (IAHR). It will provide a forum for promoting ground-breaking technologies, for proposing new collaborations and for finding new solutions for water management. The themes will be: ICT for water management and monitoring; remote sensing; big data; numerical modelling; and sustainable water management.

Further information will be made available on the conference website: (http://www.hic2020.org/)

email: contact@hic2020.org
**AUGUST**

**10 – 13 August 2020**

**4TH INTERNATIONAL CONFERENCE ON THE STATUS AND FUTURE OF THE WORLD’S LARGE RIVERS**

**Moscow, Russia**

This is the 4th in the conference series aiming to provide a global forum for a wide-ranging discussion of key issues related to research on large rivers and to their effective and sustainable management, involving both scientists and decision makers.

Further information will be made available on the World’s Large Rivers website:
(http://worldslargerivers.boku.ac.at/wlr/)
email: worldslargerivers@boku.ac.at

**13 – 14 August 2020**

**ICFGRR 2020: INTERNATIONAL CONFERENCE ON FLUVIAL GEOMORPHOLOGY AND RIVER RESTORATION**

**Venice, Italy**

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides a forum to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Fluvial Geomorphology and River Restoration.

Further information will be made available on the WASET website:
(https://waset.org/conference/2020/08/venice/ICFGRR)
email: info@waset.org

**17 – 19 August 2020**

**8TH INTERNATIONAL CONFERENCE ON FLOOD MANAGEMENT**

**Iowa City, USA**

ICFM will consider the range of issues and challenges that affect flood management, particularly the need to build resilience into future planning. By providing a forum for researchers, industry, policymakers and other stakeholders, the conference will identify the key concerns and significant challenges of the future.

Further information will be made available on the conference website: (http://www.icfm.world/)
email: icfm@icfm.world

**22 – 26 August 2020**

**7TH IWA WATER RESOURCE RECOVERY MODELLING SEMINAR**

**Arosa, Switzerland**

This WRRmod conference will enable specialists in wastewater treatment process and plant modelling to learn about recent advances in the field and will also help to set the future research agenda.

Further information will be made available on the conference or IWA website: (https://www.wrrmod2020.org/)
(http://www.iwa-network.org/events/7th-iwa-water-resource-recovery-modelling-seminar/)
email: wrrmod2020@eawag.ch

**SEPTEMBER**

**31 August – 4 September 2020**

**4TH EUROPEAN CONFERENCE ON FLOOD RISK MANAGEMENT: Science and Practice for an Uncertain Future**

**Budapest, Hungary**

FLOODrisk 2020 will focus on the concepts and methods of flood risk analysis and management as they are progressively tuned to deal with uncertainties such as climate change, sea level rise, increasing rainfall and storm incidences, and possibly changing river discharge regimes.

Further information will be made available on the conference website: (https://floodrisk2020.net/)
email: info@floodrisk2020.net

**6 – 11 September 2020**

**ICUD 2020: 15TH INTERNATIONAL CONFERENCE ON URBAN DRAINAGE**

**Melbourne, Australia**

The ICUD conference aims to present latest advances and innovative approaches in fundamental and applied research on urban drainage, taking into account meteorological, hydrological, hydraulic, water quality and socio-economic aspects worldwide.

Further information will be made available on the conference website: (http://www.icud2020.org/)
email: Please use the contact form on the above website.

**13 - 18 September 2020**

**ICCE2020: 37TH INTERNATIONAL CONFERENCE ON COASTAL ENGINEERING**

**Sydney, Australia**

The goal of the ICCE is to promote academic and technical exchange on coastal related studies covering a wide range of topics including coastal waves, nearshore currents, coastal structures, sediment transport, coastal morphology, beach nourishment, natural hazards and coastal management.

Further information will be made available on the conference website: (http://icce2020.com/)
email: encanta@encanta.com.au

**20 - 24 September 2020**

**SUSTAINABLE CITY 2020: 14TH International Conference on Urban Regeneration and Sustainability**

**Rome, Italy**

The Sustainable City Conference is organised by the Wessex Institute and the University of Rome. It addresses the multidisciplinary components of urban planning, the challenges presented by the increasing size of the cities, the amount of resources required and the complexity of modern society. It covers a wide range of topics including water resources, environmental management, flood risk, waste management and health issues.

Further information will be made available on the Wessex Institute website:
(https://www.wessex.ac.uk/conferences/2020-conferences/sustainable-city-2020)
email: Irene Moreno Milian imoreno@wessex.ac.uk
OCTOBER

3 – 7 October 2020
WEFTEC 2020
NEW ORLEANS, LA, USA
WEFTEC, the Water Environment Federation’s Annual Technical Exhibition and Conference, provides access to the field’s cutting-edge information, technologies, services, and networking.

Further information will be made available on the WEFTEC website: [https://weftec.org/]
email: Please use the contact form on the above website.

18 – 23 October 2020
IWA WORLD WATER CONGRESS & EXHIBITION 2020
COPENHAGEN, DENMARK
The International Water Association World Water Congress offers insights into how pioneering science, technological innovation and leading practices shape the developments in water management.

Further information will be made available on the IWA or Congress website: [http://www.iwa-network.org/events/iwa-world-water-congress-exhibition-2020/]
[http://worldwatercongress.org/]
email: conferences@iwahq.org

NOVEMBER

11 – 12 November 2020
WWEM 2020: 9TH INTERNATIONAL CONFERENCE AND EXHIBITION ON WATER AND WASTEWATER & ENVIRONMENTAL MONITORING
Telford
WWEM is a specialized biennial event focused on measurement, testing and analysis for the water, wastewater and environmental industry. Topics will include laboratory analysis, sensors, data management and online monitoring. There will also be workshops on case studies, problem solving, new technologies and new applications.

Further information will be made available on the WWEM website: [https://www.ilmexhibitions.com/wwem/]
e-mail: info@ilmexhibitions.com

DECEMBER

16 – 19 December 2020
1ST TRANS-ASIA CONFERENCE ON SMART TECHNOLOGIES FOR WATER AND WASTE WATER TREATMENT
VELLORE, INDIA
This conference will focus on research and innovations leading to sustainable solutions in the field of water and waste water treatment. Topics include quality, quantity, and groundwater/surface water management, water supply and sanitation planning and physical, economic and social aspects of water resources management.

Further information will be made available on the IWA website: [http://www.iwa-network.org/events/first-trans-asia-conference-on-smart-technologies-for-water-and-waste-water-treatment/]
